

Transport & Logistics

SEA is a leader in low emissions transport

Let's SEA What We Can Transport

Highlights

- SEA has a modern fleet of 7 heavy goods vehicles and a network of trusted haulers
- We drive 1 million kms/year accident free year after year
- SEA fuels our trucks with ultra-low emissions HVO100 biofuel
- We can guarantee an emissions reduction of at least 45% lower than diesel
- SEA is an expert in shipping coiled products on reels, oversize cargo, & special projects
- SEA is AEO certified meaning seamless customs clearance
- SEA has a rigging and slinging standard aligned with BS EN 12640:2019

Services

Europewide Transport	With 7 HGV we can transport throughout continental Europe and Scandinavia.
Shipping & Ferries	Low emissions vessel solutions available.
Global Logistics coverage	We can arrange transport worldwide and regularly ship to the USA and Brazil.
Value Chain	Manufacture your products at SEA and bundle them with our transportation and save.
Customs & Tax	Using FCA terms you will reduce tax liability and benefit from seamless customs clearance.
